3. Request submitted to add the Natural Hair Care certificate program (C55170). The certificate consists of 2 classes, COS-127 & COS-228 (both new courses) that will be offered during summer terms. Vickie Murphy will provide documentation from the state that this program can share the current COS area. A prospectus for SACSCOC will need to be completed. Due to time constraints, this would not be completed for Summer 2025 start date. Discussed the advantages & disadvantages of offering this certificate through ConEd versus curriculum to include student cost and financial aid availability. The prospectus can be completed concurrently with other Board & System Office approvals. Proposal to offer the certificate initially through ConEd (Summer 2025), with possible aid through workforce/other funding sources, while completing necessary steps for curriculum program approval.
Motion to approve above proposal: Dr. Dean McCall
Second the motion: Marty Flynn
All in favor: All agreed
Opposed: None

Christina Hale called the meeting adjourned at 1:45 PM.
